

ALODEYÁ
CIRCO DANZA
“Memories”

THE COMPANY

Alodeyá Circo Danza is born from the eagerness of their components for researching new ways of communicating themselves through the synergism among several, different artistic expressions. By means of poetry, live music, dance and circus, they develop a personal, intimate and extraordinary eloquent language. Stories of ups and downs, love and heartbreak. Stories of powerful contents. Stories of a great visual strength.

They started to work together in 2013 with a project that, eventually, would lead to a creation process getting as a result the show “Memories”.

MEMORIES

A search of what is lost, a brush with the forgotten. The relationship of a couple and the traces and remains when it is over. A proposal to the emotions from wistfulness and love. Sensations that stir emotions.

Alodeyá brings on stage a choreographed proposal of dance, theater, poetry and circus blended to the rhythm of live music. Sofía at the piano, drums and voice, accompanies Edu and Paula in a beautiful love story. A well drawn interaction of music and movement.
